UP-Visayas

How is KP being implemented

- **Awareness of KP varies**
 - Local government
 - DOH leadership in the region
 - Institution (Public/Private; Faculty)
- **Familiarity of the KP**
 - Health cards
 - PhilHealth
 - 4Ps
 - Mostly caters select group of beneficiaries (squatters, poor, indigenous peoples)
- **Information dissemination**
 - Barangay activities and churches
 - Local TV and radio

Present Research Endeavors

- **Nutrition**
 - Proper way of preparing food
- **Health financing – LGU**
 - Documentary analysis
 - Utilization of budget for health programs/activities
- **Private-Public Partnerships**
 - Information dissemination for people in the rural areas of doctors in the private practice
 - Medical mission – creation of database, registration of beneficiaries
- **Lab-based:** Parasitology and microbiology
- **Hospital-based:** Quality of care

GAP BETWEEN RESEARCHES AND KP

Current Issues

- **Administrative concerns**
- **Availability and release of funding**
 - Allow equal opportunities among researchers
 - Rates of honorarium
 - Donor-driven grant
- **Available resources in conducting research**
- **Research collaboration**
 - Sharing of resources
 - Willingness of sharing resources among different institutions
 - Capacity building of research centers
 - Strengthening role of PCHRD Consortium
- **Problematic coordination with NCIP**
- **Ethical Review (within the institution)**
 - Depending on the region
 - Voluntary efforts
 - Require certain facilities

Possible Solutions

- Releasing of funds ON TIME!
- Capacity building
- Strengthening consortia
- Sharing of resources
- Allocation of institutional budget for research
- Requiring institutions to have their own ERBs
 - Checklist, etc.

Thank you very much!

Maraming salamat po!

Agyaman kami unay!

Madamo gid nga salamat!

Damo nga salamat!

Arigatou gozaimasu!

Information Dissemination

- Use of teachers

Institution's current efforts in research

Department of Health

- Prioritized beneficiaries are the poor and marginalized
- NUHRA
- Information is disseminated, but not among members of the academe
- Hindrance – Geographical, economic
- Social health insurance – pooling resources
- 4Ps – Conditional cash transfers (DSWD)
- Automatic enrollment for the poor
- Even those who are enrolled, they are unaware of KP
- The Barangay Captain is not

- DOH have to tap DepEd – Multiplier effect (from the teacher to students)
- Teachers should be well-informed
- Tapping RN-HEALS

- Factors:
- Institutional dissemination

- Lecture on KP

How is KP being implemented?

Awareness of services, but not connected with KP

- Most participants are not familiar with KP
- Availment of PhilHealth services, heard from radio and TV
- From barangays: Immunization
- Churches: Announcement of activities
- Squatters were able to avail services
- In barangays, well- implemented, but in the school only few are aware of implementation of the program
- Less-fortunate are enjoying the benefits

- Awareness in the community, rural areas, not aware of KP
- Ilo-ilo - 4Ps – Land bank

- Regional Officer
- 1. Implementation of the 4Ps
- Problem of implementation of 4Ps – Identification of beneficiaries, chosen and selected few by the local official (Barangay Captain)
- 2. Upgrading of hospitals - Community and District Hospitals
- Strengthen the referral system (decongestion of referral system)
- Dole-out of services

- Encouraged to PhilHealth, Health cards
- Not mentioned and no discussed in the institution, not aware of implementation. College of Medicine

Varied awareness among the group members

Information dissemination

Issues on local radio and TV

Varied opinions among the public

Uneven awareness

DOH Official's role

Private institution

Public institution – depending on faculty

Cascade of information

The Focus Group

DOH

- Disease prevention, Maternal and child health
- Others

Lasalle

- Functional food using more modern assays

DMMMSU

- Health financing, devolution – LGU benefits
- Commissioned researches
- Indigenous peoples health

UP Visayas

- Microbiology
- Epidemiological studies
- Fisheries research

Eastern Visayas

- Larvacaedal against mosquitoes

Remedios Trinidad Romuladez Medical Foundation

- Multidrug resistance
- Nursing practices
- Parasitology

Cagayan State University

- Parasitology
- Epidemiology
