

# **Good Practices in Resource Sharing at Regional Consortium Level**

**(Central Luzon HRDC Experience)**

**Conrado J. Oliveros**

**Chairman, CLHRDC Governing Council  
& Regional Director, DOST-III**

# **STRATEGIES**

- 1. Holding dialogues/consultations among key stakeholders**
  - mobilize and complement research resources
  - strengthen our collaboration
- 2. Manpower Development**
  - TNA
  - identification of research problems
  - writing research proposals
  - ethics
- 3. Identify priorities**
  - research inventory
- 4. Formulate research programs**
  - sharing of facilities
  - sharing of resources
  - complement expertise

# **STRENGTH**

- **- strong leadership in setting direction in health research and development**
- presence of credible researchers and institutions**
- commitment and strong support of DOH to NUHRA and RUHRA**
- availability of wide range of expertise to support regional initiatives**
- strong desire among researchers and institutions to collaborate and work together**

**1. Collaborative research on medicinal plants**

**2. Collaborative research on TB**

**- funding: DOST-III – P1M**

**DOH-III – P1M**

**PCARRD – P0.4M**

**- provide leadership in sourcing resources**

**3. Institutionalization of research among member-institutions**

**- allocate funds for research out of income**

# **RECOMMENDATION**

- PNHRS to provide P5M per consortium for health research**

***Thank you!***
