

**Creating  
Alignment**  
How do our  
consortia align  
achievements to  
sustain research  
partnerships for  
better health?  
For our nation?  
For the next  
generation?

**ALIGNMENT**

Quit quibbling over it and kick evil's ass.

- 1. Presentations:**
  - Ethics**
  - Research**
  - Utilization**
  - Governance and Research**
  - Mobilization**
- 2. Reactions from PCHRD, DOH, CHED**
- 3. Open Forum**

**Watch out for helping and hindering forces**

All-Consortia Assembly

Helping Forces  
= Driving Forces for  
Achieving Goals of  
Consortium

- Ethics
  - Commitment/support of PCHRD
  - Growing interest in research ethics
- Research Utilization
  - Banking on the knowledge of seasoned researchers who understand the process of research utilization
- Governance & Resource Mobilization
  - Commitment of member institutions of the consortium; Good working relationship with the DOST secretariat

## All-Consortia Assembly

Hindering Forces  
= Delaying Forces  
for Achieving Goals  
of Consortium

- Ethics
  - Institutions do not fully appreciate the importance of ERC, e.g. monitoring, databasing, accreditation
- Research Utilization
  - Not very clear about what research utilization means e.g., guidelines on research dissemination; how to deal with various stakeholders
- Governance & Resource Mobilization
  - Moving forward but not as fast as hoped

# **Vision 2014 – 2015**

- Every region, a functioning EB and by 2012, functioning ERB in two regions**
- Every research, an improvement to health outcomes, and to MDGs of the nation**
- Every policy recommendation, useful to LGUs**
